

Piano Man harmonica TAB

Billy Joel's song Piano Man was released in 1973 as his first single and is based upon his experiences when he worked as a lounge player in Los Angeles, CA.

Piano Man is in the key of C and to play it you will need a harmonica also in the key of C because we will be playing in first position otherwise known as “straight harp.”

The song is in $\frac{3}{4}$ time or “waltz time” which is unusual for a rock song but it works very well in Piano Man.

Here is my video where I show how to play it: <https://youtu.be/muYRYOImVRU>
